

SUPPORTED VERSIONS AND DEVICES

Extempore is a multi-platform product, and can be used on multiple types of mobile devices and desktop browsers.

In order to take advantage of all of Extempore's features (and in order to increase security on your device) it is highly recommended that you upgrade to the latest versions of your machine's operating system.

These are the versions currently supported:

ANDROID DEVICES

Android 4.1 (Jelly Bean) and above.

Extempore might work with older versions of Android on some devices but no others.

In order to check which version of Android your device has installed, please click [here](#).

Need to upgrade? Follow instructions [here](#).

APPLE DEVICES

iOS 9.2 and above.

Extempore works with older versions of iOS, but some actions might cause the app to shut down.

In order to check which operating system version your Apple device has installed, please click [here](#).

Need to upgrade? Follow instructions [here](#).

INTERNET BROWSERS

Chrome (55 and above) and Firefox (50 and above) for a full instructor experience.

Chrome 63 and above for a full student experience.

Newer versions of Safari, Internet Explorer and Edge will not allow recording of audio or video prompts, but will support all other features normally.

Please click [here](#) for instructions on how to upgrade your Chrome Browser when a new version is released.

We will continue to update this page as progress is made in this area. Questions or comments? Please contact us at support@extemporeapp.com.
